Your Complete Termite & Construction Solution!

TIMES UP TERMITE^{INC}

Warranty Service & Monitoring Program

The Service Warranty & Monitoring Program provides the protection you need. Termites cause more than \$2 billion in damage every year. Should your home ever become infested by termites or other wood boring insects, removing them will be very costly. It will be even more expensive if structural damage has gone undetected. The best defense against unforeseen structural repairs in the future is this exclusive protection plan for your home. Our licensed professionals return on a routine basis to perform a complete inspection, providing 100% protection for your home.

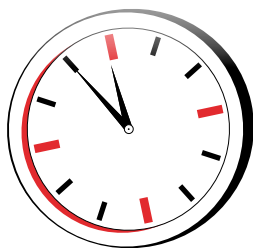

What does the Service Warranty & Monitoring Program Cover?

If there is ever any new termite or wood boring insect activity, we will treat the infestation promptly, at no extra cost to you. And if there is ever any new termite damage, you will be covered for unlimited repairs as long as you maintain your plan. The Program includes an 18-month scheduled service and monitoring call after the warranty begins; and one complete termite inspection at the end of the warranty period. It also includes a limited warranty to fences, outbuilding and detached structures. More importantly, it covers any unforeseen, future infestations or damage. The 3-year Service Warranty & Monitoring Program means 100% Protection.

Added Value

Our routine monitoring also provides protection against other conditions that may go undetected. In addition you are entitled to unlimited service calls. Your inspection will not only detect termites but also any water-related conditions – like plumbing leaks or dry rot. Tap into our knowledge base with over ten decades of combined experience. This strategy is an important shield for one of your most valued assets – your home. Don't let termites take a big bite out of your equity.

We look forward in providing you the peace of mind you deserve. Call us today at 510.568.7200 to start the best Termite Protection plan available.
